Subject: State/EPA UIC meeting (1-2pm; May 13, 2015)

Hi Everyone,

Below is a draft agenda for our meeting tomorrow. Please share with others in your organizations, as appropriate. Also, while we are scheduled to go 1-2pm, we are wondering whether it might be possible to extend the time another 30-60 minutes to accommodate the somewhat full agenda. See you tomorrow at the CalEPA building.

- Status of May 15th deliverables (evaluation of all Category 1 wells and revised Enclosure B to incorporate cyclic steam wells)
- Status of rulemaking efforts (emergency and permanent)
- 11 formations HTAE – current status, path forward/timeline, remaining issues
- Progress/status update on key upcoming milestones and deliverables
 - * July 15th deadline for submission of AEs for sub-3000 Category 1 wells (except 11 HTAE)
 - * July 15th deadline for submission of initial assessment of 11 HTAE formations, whether any are expected to meet exemption criteria
 - * July 15th deadline for submission of closure plan for existing wells not seeking AEs
 - * July 15th deadline for submission of detailed plan for Class II program improvements (including both rulemaking and non-rulemaking activities)

- Communications with external parties
